Def. Doc. # 2192

Exh. No.

Translated by
Defense Language Branch

The birth of a Manchurian state would not become
a problem of the League of Nations.

Told the Ambassador YOSHIZAWA on
his way to Tokyo.

(The ASAHI of 15, January, 1932)

(Telephone from Osaka)

The military activities in Manchuria has ceased, and
now the era of construction of new Manchuria and Mongolia
has begun. We must do our utmost, with the government and
people in one body, so that the powers can make their free
economic activities. Even if a new state is established in
Manchuria, it is of different nature from the Manchurian
Incident itself, and therefore, it may not become as question
in the League of Nations.
